**MEDIA SEARCH – INDIVIDUAL: \$65.00**

The search report will not draw conclusions regarding the object of the search, but will attempt to provide unbiased results. Searches taking longer than 2 hours will be subject to an additional fee.

**CRIMINAL SEARCHES**

**BASIC CRIMINAL SEARCH: (2) \$17.00**

This service provides a 7 to 10 year felony and misdemeanor search in the jurisdiction of residence or county requested. A researcher **physically checks** for felonies in county records and misdemeanors in municipal records in the county seat using a combination of identifiers, such as current name, address, Social Security Number, and date of birth. We automatically search up to 3 former or additional names, including hyphenated names provided by the applicant, for an additional charge.

**STATEWIDE CRIMINAL SEARCH: (2) \$31.00**

Services differ by state. Whenever possible, searches are conducted through the appropriate state agencies. Several different kinds of physical and electronic checks are conducted. First, a basic county criminal check(s) (see Basic Criminal above) is initiated. Second, one or more searches are conducted through various electronic databases in the state requested. When criminal history is identified in additional counties, researchers are automatically sent to those counties within the state to further search for felonies and misdemeanors. A 50 state sexual offender search and a search of 300+ databases are also completed to look for career felons.

**PRE-CHECK COMPLETE (A NATIONAL CRIMINAL SEARCH): (2)(3) \$37.00**

Using the job seeker's (applicant's) Social Security Number and highly sophisticated electronic searches (including a Statewide, multi-state and National Sexual Offender Registry), Pre-Check is able to provide targeted physical searches of county and municipal court records for criminal activity. Electronic searches incorporate a 50 state sexual offender search, multiple United States Patriot Act searches, to include part of the FBI, US Marshall, and OFAC databases. Pre-Check sends researchers to specific locations to physically search for felonies and misdemeanors. All searches within the applicant's state of residence are searched for one fee. Separate per county fees occur for searches outside the state (see Basic Criminal Search). Requests received by 11:00am Eastern time are typically completed in 2 to 3 days.

**FEDERAL COURT SEARCH: \$18.00**

This service examines crimes against the U.S. Government such as bank robbery, treason, interstate drug trafficking, mail fraud, civil rights violations, white collar crimes, kidnapping, tax evasion, embezzlement, illegal sale of firearms and pornographic exploitation of children. Under the Freedom of Information Act, we are able to search Federal databases, legislated by the U.S. Congress. Clear histories, along with bankruptcy cases, are reported in 1 to 2 days. However, should a potential criminal history appear, confirmation through the US Marshall's Office may be obtained by completing form DOJ-361. Federal-level civil searches are available upon request. Confirmation of these results typically take 20 business days to be processed by the U.S. Marshall's office.

**CIVIL SEARCH: \$18.00**

This is an upper level search that checks for civil litigation in which the financial damages are \$3,000 or more. These non-criminal actions cover such areas as lawsuits against previous employers and workers' compensation claims.

**ELECTRONIC E-VERIFY: \$8.00**

This service automates the E-Verify process. Through a very intuitive process, managers can comply with OFCCP regulations thus avoiding federal penalties from ICE and other agencies. The setup fee is \$125.00.
